Tribute Wall

“ *My beautiful daughter was the light of my life. She was my one and only child. She just meant the world to me. She was so talented, playing the drums, the guitar, writing poetry. She was the Mother of two beautiful little girls who adored their Mother. She was so full of life and her smile lit up any room she walked into. Her style and fashion game was always on point. She loved the Lord and her family.*

We Love and miss you so much London.
